Dear Prof Seiichi,

**Re: 9<sup>th</sup> Congress of the International Society for Hemodialysis, 13<sup>th</sup> - 16<sup>th</sup> September 2015 @ K. L. ,Malaysia**

The 9<sup>th</sup> ISHD congress will be held in Kuala Lumpur in September this year, organised jointly by the International Society for Hemodialysis (ISHD) and the Malaysian Society of Nephrology (MSN). The theme for the Congress is “*Global Challenges in Hemodialysis: learning from the past and moving forward*”.

The program promises to be an exciting mix of the science and practice of Hemodialysis that will cater to the interests and needs of various stakeholders in Hemodialysis treatment. The Organising Committee hopes that by bringing the 9<sup>th</sup> Congress of the ISHD to Kuala Lumpur, more nurses and doctors as well as other interested parties from Asia and around the world will be able to attend and benefit from the meeting. This will translate to improved care for the rapidly growing population of Hemodialysis patients in the region.

In our efforts to encourage participation in the 9<sup>th</sup> Congress of the ISHD, we hope you will be able to publicise the 9<sup>th</sup> Congress of the ISHD at every opportunity in your country to promote the Congress to your fellow colleagues and members. Our secretariat will be most happy to assist you and send promotional materials, in both print and electronic forms, to any national meeting of doctors and nurses in your country.
